RAMON NAVARRO IN

"The Flying Fleet"

Dedicated to the heroic flyers of the navy. Made with the co-operation of the Navy, this epic film is a true record of the laughs, the loves, the heroism, the countless thrills and dangers of the naval flyers.

The plane soars miles in the air! Breath taking moments never before brought to the screen! The star of "Beu Hurr" in another great romance.

Theatre Patrons Promised Treat

The Champion Theatre is now definitely located in the new Community Hall and with the extra space at command are putting on a series of programs which cannot fail to delight picture fans. Immediately in prospect are "Trail of '98," "Uncle Tom's Cabin," and "The Man Who Laughs," three pictures of the first class. The Champion picture show has at all times provided entertainment of a high class, but the manager assures us the future will exceed all former efforts in this respect. Prices of admission will remain the same with one exception, viz: the price for adults, which is increased five cents to fifty cents. Patrons of the pictures may congratulate themselves upon future prospects.

Easter Dance Enjoyable Affair

The dance in the New Community Hall on Monday evening under the auspices of the Champion Elks was a highly enjoyable affair in every way. The music supplied by the Johnny Anderson orchestra was excellent, the floor was in splendid condition and the novelty features were specially attractive. On the whole those who attended did not hesitate in expressing the opinion that this was one of the best dances they had ever attended in Champion.

Seeding Started Wed., April 3rd

Sam Lebeck started seeding on J. N. Beaubier's farm on Wednesday, April 3rd. As far as can be learned this is the first grain sown in this vicinity.

Castator-Aubuchon

The marriage of Glenda Velma Aubuchon, eldest daughter of Mrs. H. Claywell, and Oscar Nelson Castator took place at Vulcan on Wednesday, March 10th, Rev. Mr. Buntton officiating. The happy couple left after the ceremony for Calgary by motor car. The bride who looked very lovely in a costume of blue silk, was the recipient of good wishes from many friends. On Monday, March 25th, some thirty-two young people from Champion visited the newly-weds at their residence and celebrated the occasion in the usual style. The contracting parties are widely known and popular in the district, and good wishes for a happy future will be general.

The Easter tea, bake sale and sale of plants held by the Ladies Aid in the community hall on Saturday was a decided success in every respect. The attendance was large and the offerings and tea were well patronized. Bad roads interfered to some extent with the number of patrons.

Messrs. G. A. Orr and J. S. Collins, accompanied by Mrs. Orr and Mrs. Collins were visitors to Maple Leaf Chapter O. E. S. last week.

Are you ready for the next big rise in Oil Stocks? List your holdings with Campbell's right now.

Don't forget the Musical Recital on Monday, April 8th.

Musical Recital Monday, April 8

The annual musical recital by Miss Wilson's pupils in this vicinity will be held in the New Community Hall on Monday, April 8th, commencing at 8 p.m. The proceeds of the recital will go to tennis club funds so that organization has a particular interest in this year's premier musical event. These recitals have been very popular with the public in the past and it is hoped an unusually good attendance will greet the entertainers next Monday. Admission, adults 50c, children 25c. J. Geo. Harper, director of the Lethbridge Conservatory of Music, will take part in the program with a select orchestra of fourteen pieces, an attraction in itself well worth the price of admission.

P.T.A. Speaker Writes Poem

Members and friends of the Champion Parent Teacher Association will be interested in the following item published in April 2nd addition of the Calgary Albertan. It will be remembered that Miss Thomson recently gave a very interesting and instructive talk on "Children's Reading" at a meeting of the P.T.A. in the new Champion school.

The poem recited below has been published recently in The Trail, official organ of the Alumni Association of the University of Alberta. It is from the pen of Miss Georgina H. Thomson, a graduate of the University in honors English, member of the Calgary branch of the Canadian Authors' Association and reference librarian at the Calgary Public Library.

OUR LOVE

By Georgina H. Thomson
He said, "Our love is like a flame,
A mounting flame that whittles
burns.
Intense and fierce it seeks the light,
And all the dross it swiftly spurns."
But, ah! a flame as swiftly dies,
And all our love in ashes lies!

He said, "Our love is like a flower,
A big as velvet rose,
That from a close and hidden bud
To radiance and perfection grows."
But, ah! a flower as swiftly dies,
And love like withered petals lies!

He said, "Our love is like a sea,
A sea whose waves of passion sweep,
And parts in infinitesimal cays.
Still unquenched, he hidden deep,"
Ah, yes, for might can change the sea,
And love is for eternity.

The regular monthly meeting of the P. T. A. was scheduled for Wednesday, April 3rd, but owing to it being a holiday season resulting in the absence of the teachers the meeting has been cancelled.

The P. T. A. are tentatively planning a big night in the near future and hoping to have a good lecturer and attractive musical features.

Sensational air thrills—parachute leaps—and wrecks—in a mighty drama of the navy's flyers. See "The Flying Fleet."

The official visit of Mrs. S. S. Savage, Worthy Grand Matron of the Order of the Eastern Star, was paid to the local lodge on Thursday, March 28th. In addition to a large turnout of local members Noblecford, Barons and Carmangay were well represented in the meeting.

Miss Jennie E. Ulfsten returned to Champion on Thursday from the Charesholm school having received the special prize in home economics, meat serving and highest standing in cooking.

Society Brand Clothes

A smart young men's model, in Briarcliff fabric

Did you ever see the suit you are wearing?

We mean—did you ever see it with a cold, impartial eye? Have you met your coat-sleeve inelegant in the tangle of a street-car, and thought it looked typically street-carish?

You know how few clothes are really distinguished looking—how hard it is to find a fabric that's out of the ordinary. That's why we suggest you see our new showing of Briarcliff suits, by Society Brand. They're as far from the rank and file as anything you've imagined!

In fact, the only "average" thing about them is the price. The makers of Society Brand schemed and schemed to offer real Briarcliff for so little!

THURSDAY, April 4, 1920

NOTES AND COMMENT.

The latest snow storm and succeeding colder weather put a damper for the time on seeding operations for which the great majority were preparing. However, the delay may be but a short one.

The new government administrative building, which will soon be under construction in Edmonton, will cost approximately \$500,000.

Matthew Snow, grain commissioner of the opinion the evidence collected by the Royal Grain Commission is not worth much. In his opinion quantity evidently will not replace quality.

The steel has reached Fort Churchill, the terminus of the Hudson Bay railway. The event is of importance to the entire western country and there is no doubt it will be a big factor in the cheaper transportation of western products to European markets.

The latest snowfall has added to an appreciable extent to the moisture available this spring. It was considerably heavier at Champion than in the country east of the Valley.

Hon. J. F. Lymburn is the latest minister to deny that he intends resigning his position as attorney-general of Alberta. The rumor monger seems to be guessing wildly lately.

Two nationally prominent men passed away during the past week in Sir Hugh John Macdonald of Winnipeg, and Sir Lomer Gouin of Montreal. Both had been active politically in their respective provinces as well as in Dominion affairs.

The sinking of the Canadian vessel 'Im Alone' by a United States revenue cutter is being investigated by the authorities. On the whole the rum running outfit is not entitled to a great deal of sympathy even if they get into trouble outside the twelve mile limit, but when loss of life occurs without real necessity there is bound to be trouble especially if the action of the revenue cutter was illegal.

Turner Valley is supplying enough new wells almost constantly to keep the oil market on the up grade. No one doubts the ultimate greatness of this field as a producer and undoubtedly investors will profit largely by the new wealth. There will be losers too, in the speculative end.

The impetus given to enter trainments of every kind by the erection of the new hall is certainly very extensive, and the added pleasure to the audiences by the splendid surroundings is easy to appreciate after a visit on one of the many

occasions offering. If there are any regrets they would be in the way of wishing the building of the hall was so long delayed.

NEWS NOTES

An interesting event at Vermilion during the past week was the presentation by Hon. R. G. Reid, Provincial Treasurer of the bronze medal of the Royal Canadian Humane Association to Rosetta Annette for her heroic conduct in saving the lives of seven children from a burning house at Vermilion last November.

The suite filed on behalf of thirteen farmers of the Lomond district by A. Macleod Sinclair, K. C., and J. C. Hendry against the C. P. R. for damages caused by a prairie fire alleged to have originated from a spark from a C. P. R. engine, has been settled out of court. The case, which was on the docket for the civil jury sittings which start in the courthouse before Chief Justice Simmons, will be consequently withdrawn, with the acquiescence of the court. The settlement came to have been satisfactory to the plaintiff and their lawyers.—Lethbridge Herald.

Over 1,000 teachers from all sections of the province are meeting in Edmonton during the coming week to attend the sessions of the 19th Annual Convention of the Alberta Educational Association. Speakers during the convention will include a number of outstanding authorities on educational affairs.

After one of the most successful seasons since their inception, the four provincial schools of agriculture closed for the 1920-21 term during the past week. Premier Brownlee and Hon. R. G. Reid were the principal speakers at the closing exercises at the Vermilion School, Hon. Geo. Howley spoke at the Oids School and Mr. H. A. Craig represented the government at the closing exercises at Claresholm and Raymond. The number of young men and women students in attendance at the schools during the past term has been as follows: Oids 238; Vermilion 170; Claresholm 78; and Raymond 64.

Seeding and Planting Flowers

(Experimental Farms Note)
 It frequently happens that those who are unacquainted with the habits of flowers and what weather conditions they will stand, lose either seeds or plants by sowing or planting them at the wrong time or under unfavorable soil conditions. The temptation is to sow all flower seeds outside as soon as the soil is dry

enough in the spring not thinking of the cold frosty weather which is to follow, the result being that many seeds rot in the ground without germinating and others germinate but soon after the plants appear above ground they are killed by frost. It is, then, desirable to have some idea of the kinds of seed which may be sown very early and those plants of which the seeds should not be planted until the soil is warmer or danger of frost nearly over.

Among the hardest annual plants grown for their flowers are Sweet Alyssum, Calendula or Pot Marigold, Candytuft, Gossypium, Coropseum, Cosmos, Echscholtzia, Larkspur, Linaria, Nasturtium, Poppy, Virginian Stock, Sweet Pea. These may be sown as soon as the soil is dry enough. Among the tender annuals are Nasturtium, Zinnia, Aster, Stocks, Balsam, seed of which should not be sown until the soil heats up somewhat and there is little danger of frost after the plants come up. The temptation is to plant geraniums outside too early, especially when they have been inside all winter, but in most places in Canada they should not be planted outside until near the end of May or the beginning of June. Gladiolus comes may be planted as soon as the soil is dry enough but Cannas and Dahlias should not be planted until danger of frost is about over. The earlier that Roses are planted in the spring, the more likely they are to grow.

MUNICIPAL DISTRICT OF CLIFTON, No. 127

NOTICE is hereby given that under the provisions of the Tax Recovery Act and amendments thereto, the following lands will be offered for Sale by Public Auction at the Secretary's Office, Bank of Commerce Building, Lomond, Alta. on Friday the 10th day of May 1920 at 2 o'clock p.m.
 Each parcel subject to a reserve bid and to reservations in existing Certificates of Title. Redemption may be effected by payment of all taxes in arrears and costs at any time prior to the Sale.
 Dated at Lomond this 21st day of April, 1920.

Official Tests Prove Three-Fuel Power

On the steady pull, the three-fuel Hart-Parr never falters. In an official test, conducted by nationally known engineers who used cheap distillate for fuel, the great Hart-Parr 18-36 pulled 5,535 pounds on the drawbar, which made the heavy 4-plow load more play. Double your control of power with a three-fuel Hart-Parr. Cut your costs in time, fuel and efficiency—it pays! Hart-Parrs are made in three sizes for small, medium and large farms, and have three forward speeds to speed up hauling and field work. Drive on yourself and experience the thrill of controlling tremendous power.

Archie Ruggles Breaks into Rhyme

Oskis, Minnesota, Review

Mr. and Mrs. E. R. Ruggles, upon the occasion of their Golden Wedding celebration last week, were in receipt of an original poem from their son, J. Archie Ruggles, manager of the Goose Ranch at Champion, Alta., Canada, which they prize very highly. Accompanying the poem which was received on their Golden Wedding day, was \$20 in gold. Following is the rhyme which they have laid up in their archives among other much cherished remembrances:

Tuesday for you, is fast approaching
That marks fifty years of wedded life
And life is surely not a failure,
When you live that long as man and wife.

We know the days have not all been sunny,
Clouds sometimes hide the sun
But fifty years, all happy and pros-
perous
Are not in store for anyone.

So in remembrance of March the sixth,
Your Golden Wedding Day,
We are sending fifty golden dollars
That you may spend or put away.

And each and every dollar
Is away above par in love
I wrapped in tissues of Best Wishes,
Soiled with prayers, addressed above.

So, in the golden hours of twilight,
As the sun is going to rest,
As you sit in retrospection
Think of how you have been blessed.

Having love of your descendants
Scattered, the they all may be,
I am sure that their best wishes
Accompany those sent by me,
Ever your affectionate son,
—ARCHIE

Lomond News

The oil stock boom is causing a few parties from here to visit Calgary more times than one recently. Not so much about reindeer nowadays.

Glenny Thompson, oldest son of the manager of the Canadian Bank of Commerce here, is seriously ill following an operation at the Valeau hospital.

Three carloads of pipe and other material have arrived here for the Bay-Marlard oil interests, with more to follow. This would indicate there is no doubt as to the fact that deep drilling will be undertaken here this year.

Operations on the land have ceased since the snow and frost visited us. Many farmers are "Bavin to go," but it can't be met successfully.

Members of six or more families are reported to be on the sick list, in some cases scarlet fever being the trouble.

The C. P. R. Co. have finally decided to settle claims against them from some eighteen months ago for the sum of \$8500.00, the original amounts demanded by the claimants having amounted to \$18,000. Rather than have any further trouble and expense going through the courts the amount offered was accepted. The fire occurred in October, 1927. There were thirteen claimants for damages.

His Excellency Lord Willingdon, Governor General of Canada, accompanied by Lady Willingdon will make a brief visit in Edmonton and Calgary during the week on his way to and from the International Convention of Education which he will attend at Victoria, B. C.

Some 6,000 homesteads or approximately 1,000,000 acres in the Grande Prairie district and in the Peace River Block in British Columbia will be thrown open for entry in the near future according to word received at Grande Prairie recently from the Department of Interior, Ottawa. This area includes land formerly held as forestry preserves lying between the sixth meridian and the B. C. boundary line and bounded on the north by the

It's the money you spend wisely that counts

Someone has said that a rich man has more fun keeping a budget than a man of moderate means. Because the money he saves is tangible, he can see it and invest it, and put it to work. Be that as it may, a budget is an invaluable help to anyone.

A budget helps you keep the right proportions between expenses, prevents you from spending more than is best for food and rent, or crimping more than you should on entertainment and luxury. But a budget is not a reason for getting cheap things, things in which you forfeit quality by attempting to save on price. A budget says to you: "Here is the amount of money you should spend for this. Spend all of it, but don't spend more." And it is up to you to get the best that can be got for that amount.

The person who spends his money wisely, who likes to get the utmost for it, always finds out from advertisements how he can spend it to the best advantage.

It is surprising how much more wisely you can buy if you make it a habit to read advertising. A little more value here . . . a little better workmanship there . . . in this thing slightly more durability . . . that product perhaps a bit finer. And every cent of money you spend for advertised merchandise will bring you greater comfort, a higher quality of goods, and a standard of excellence that is nationally recognized.

It certainly pays to read the advertisements

SWISS WORLD IS APPROACHING A FINANCIAL CRISIS

London, Eng.—Sir George Paish, British financier and economist, who recently predicted the world was approaching a financial crisis, considers the 20 per cent. call money rate reached on the New York Stock Exchange a possible forerunner of the crisis, he told the United Press.

The white-haired authority, on world economic conditions pointed to recent bank rates in various countries as indications that the world was suffering from what he termed "financial sickness."

"I am not prophetic," however," he said, "I am simply an interested observer attempting to diagnose the world's financial troubles. In my recent speech at the University of Cambridge, I simply called attention to a situation which I have been watching develop for some time past."

The world in general is over-borrowing, with the possible exception of South America, Sir George said. He emphasized "the utter folly" of various nations erecting trade barriers which would prevent reimbursement of their mutual debts.

"It is of very great moment," he said, "that the situation should be surveyed not only by bankers and business men, but by statesmen as well, in order that a collection effort may be made to avert a more dangerous situation than now exists."

"High money rates in America, since the middle of last year have been a notification to the world in general that America's power to lend has become much smaller and it is obvious that still higher rates of interest now current in America and the effort of American bankers to restrict credit already granted in the states themselves imply an almost total cessation of American credit to outside countries," Sir George said.

"Moreover, a high rate of interest cannot fail to affect American business adversely. If it is borne in mind that the great quantity of credit granted by the United States until the present time has been mainly responsible for the maintenance of world prices for commodities throughout the present level it is obvious that restriction of this credit must bring about a general fall of prices with consequent distress to producers throughout the world that cannot easily be measured."

"The situation would be exceedingly difficult if the volume of credit already granted were of normal dimensions, but having regard to the vast amount of credit that has been granted throughout the world, it is obvious that restriction of American credit at the present time in the restriction that seems to be in the air, cannot fail to have serious consequences to both credit and business."

Counsel For Alberta

Edmonton.—S. B. Woods, K.C., has been retained as counsel for the Alberta government in connection with the appeal to the Canada Privy Council against the grain rates decision of the railway commission. Both Alberta and Saskatchewan are supporting the coast province in this action, and Mr. Woods will represent this province when the case comes up at Ottawa. No date for the hearing has yet been announced.

Scientific Fox Breeding

Munich, Bavaria.—Breeding of silver foxes on a "high-brow" scale is being undertaken by eight university professors of Tübingen, Bavaria. The farm which they have established with eight pairs of foxes as a nucleus will be conducted wholly on scientific principles. Eventually the learned men hope also to breed other fur bearing animals.

Receives Life Sentence

Port Trench, Mich.—Sylvester Brown, reputed run runner, was sentenced to life imprisonment in solitary confinement after pleading guilty in circuit court to first degree murder for the slaying of Earl A. Roberts United States immigration officer on the border. Roberts was shot and fatally wounded at Algonquin, south of here.

Long Flight Ended

Rio De Janeiro.—The Spanish aviators, Jimenez and Iglesias, had their plane the *Jesus del Gran Poder*, at Bahia after considering a flight across the South Atlantic.

W. N. U. 1779

Radio Commission Making Western Trip

Will Investigate Domestic Conditions in the Broadcasting Field. Ottawa.—The royal commission on radio broadcasting headed by Sir John Aird of Toronto, will leave for Western Canada on April 5, to inaugurate its program of hearings into domestic conditions in the radio broadcasting field.

The commission will proceed direct to Vancouver, where the members will attend some of the sessions of the National Council of Education, which has placed on the commission agenda several papers relating to the radio question. A debate will also be held on the subject: "A national policy or exploitation of the radio." Hearings will be held in Vancouver and Victoria.

Public sittings will be held later in Edmonton, Calgary, Saskatoon, Regina, Moose Jaw, Brandon, Winnipeg, Port Arthur and Port Williams, followed by a tour of Ontario, Quebec and Maritime provinces and a visit to a number of centres in the United States.

The final report of the commission is expected to be submitted to the government before Parliament progresses.

Disastrous Prairie Fire

Large Strip of Country Swept Bare By Flames

Regina.—A prairie fire started northwest of Nedeauville, Sask., destroyed thousands of acres of prairie, the buildings on three farms, and resulted in the death of a man sent to the hospital at Medicine Hat where his wounds, though serious, are not thought to be fatal.

A strip of country about ten miles wide and twenty-five miles long was swept bare. At its closest to the city of Regina, it was ten miles away, north of Tompkins.

George Campbell lost his barn and outbuildings but managed to save his stock, some of this being saved when running through the fire. His loss is estimated at \$1,000.

John Fisher and family were driven from their home, which was destroyed by the flames, and are staying with neighbors. Mr. Fisher also lost all his buildings and feed for spring work on the farm. His loss is placed at \$1,500.

Fred Robinson, by blowing a fire around his buildings, saved them, but lost all his feed, valued at \$300.

Advertise Zeppelin Cruise

Plan Trip From Germany To America In May

Frankfurt-On-the-Main, Germany.—For what is believed to be the first time in history, the advertising agencies in a daily newspaper were asked to place passengers on a long airship pleasure cruise.

The Frankfurter Zeitung carried the following advertisement, inserted by the Hamburg-American Line Berlin Travel Bureau.

"The second Zeppelin cruise, to the Mediterranean and the Orient, will start about April 15 from Friedrichshafen. Passage per person \$500 (about \$750).

"Zeppelin cruise to America about May 10. Passage from Friedrichshafen per person, \$2,000.

Wants Records Corrected

American Soldier Reported 'Killed In Action' Asks To Be Declared Alive

Santa Rosa, Cal.—Thomas R. Smith, of this city, reported "killed in action" during the World War, is very much alive and has appeared to the American Legion in an effort to have his name changed.

For 10 years the government has been insisting that Smith's sister, Mrs. Nellie Johnson of this city, accept \$10,000 in war risk insurance for her brother's "death."

Mrs. Johnson and her brother both standing before the court in an effort to have the American Legion to aid in straightening out the records at Washington.

Many Families For West

Saskatoon.—Agents of the Canada Colonization Association recently announced they would bring 600 families to Canada by the end of August. Between 250 and 300 of these families will be settled in Saskatchewan.

Re-Elected Governor

London, England.—The Right Hon. Montague Norman has been re-elected governor of the Bank of England, Sir Ernest Harcourt was named deputy governor.

Train Crew Arrested

Responsible For Wreck At Drumont According To Coroner's Finding

Perry Sound, Ont.—Responsibility for the wreck of two Canadian National trains at Drumont, with a death toll of at least fourteen was placed on the crew of the northbound train No. 3 in the written verdict of Special Coroner J. B. Broughton.

Criminal proceedings were at once instituted against the three surviving members of the crew and charges of manslaughter were laid against Engineer J. V. Alexander, Fireman E. Riley and Rear End Brakeman Charles Gorrie.

The arrest of the three trainmen followed the verdict of the coroner's inquest on the death of Horace Smith, one of the victims of the wreck. According to the verdict the collision of the two fast trains was "due to the neglect of the crew of Train No. 3 in running past the meeting place at which they had orders to stop."

It is expected the three accused trainmen will appear for trial at the spring sessions, which open here May 4.

MARSHAL FOCH IS BURIED WITH IMPRESSIVE RITES

Paris—Marshal Foch was laid to rest near the tomb of Napoleon at the Invalides.

More than a million heads bowed as the great soldier was borne on a gun carriage from the stately gothic nave of Notre Dame Cathedral to the simple and severe chapel of the Invalides.

Church and State, separated in France for more than twenty years, united for the day to provide the devout Christian soldier with a national funeral unparalleled in pomp and magnificence. The world has seldom seen its like before and it is not probable that such a show of solemn splendor will be repeated in this age.

The Republic of France and the Church of Rome were joined by ten millions whose armies Foch commanded in the greatest of wars heaping honors upon the tier of the master of ten million wars.

Most of the civilized world was represented at the church funeral ceremony, and in the cortege that followed in the greatest of triumph heaping honors upon the tier of the master of ten million wars.

The great outpouring of people who watched the funeral procession provided the crowning stroke of the great edifice of honor and love which France since the day he was chosen from all military commanders of the Allies to lead 10,000,000 fighting men under 10 flags.

Premier Poincaré, who was president of France during the war, said in his brief funeral address that Foch had had no other ambition than to serve, and had wished no other recompense than the assurance of having accomplished his duty.

PRaises HYDRO DEVELOPMENT

Senator Norris of Nebraska, who praised Ontario hydro development as one of the greatest in the world and the St. Lawrence development as the most tremendous undertaking of this civilization. He also declared the United States high tariff policy is not wise.

Lightning Strikes

Electric Storm At Ottawa Turned Day Into Night

Ottawa.—Batteries of a recent severe electric storm centred their bombardment upon Parliament Hill and the buildings of the government, struck the Peace Tower and caused the mighty pile of granite to shudder with the shock. Lightning conductors prevented any serious damage. Only the tower elevator was put out of order. A second blinding flash struck at the southeast corner of the centre block, just above the rooms of the press correspondent, causing some confusion. There was no damage here, however.

The storm made the day as dark as night.

To Study Tourist Traffic

New Subject Taken Up At German Academy Of Commerce

Berlin.—Scientific research of tourist traffic, including particularly a study of its causes and its social, political and economic effects, has been added to the curriculum of the Academy of Commerce of Berlin. Transportation methods, hotel management and the work of expatriation and farms will also be studied, while special courses will be arranged for directors and managers of hotels, spas, farms and so forth. A library dealing with the subject is to be assembled by the academy.

Appointed Poultry Breeder

Regina, Sask.—Appointment of W. H. McLean, Saskatoon, as provincial poultry breeder, effective May 1, was announced by Hon. J. H. Hamilton, minister of agriculture. Mr. Hamilton said the appointment was made on the recommendation of the Saskatchewan Poultry Breeders' association, in recognition of the growing importance of the industry in the province.

FLYING GOLD SEEKERS

Capt. Charles Sutton, chief of Canada's flying gold seekers, accompanied by Mr. Sutton, is here seen just prior to taking off from the Fairchild airport, Farmingdale, L.I. for an expedition to the Canadian Northwest.

Chinese Law Courts

Busy With Divorces

Number Of Cases Greatly Increased Under Nationalist Rule. Shanghai.—Divorces have come to China to stay. With the National Government more firmly entrenched and the women of the country quickly seizing the newly found freedom, the Chinese law courts daily are handing an increasing number of divorces.

Last year a record was set in Shanghai courts with a total of more than 1,400 divorces, a gain of more than 800 over 1927. In 1928, before the establishment of Nationalists rule in Shanghai, divorces failed to reach the hundred mark.

Survey of the 1928 divorces based on statistics compiled by the United Press, reveals that spring and summer are the "big" seasons, with fall and winter trailing quite a distance behind.

More than 60 per cent. of 1928 divorces were filed between May 1 and September 30, the remaining 40 per cent. in the other seven months of the year. December wound up the year with 70 cases, just a little more than 5 per cent. of the year's total.

Peace Tower

Planning Survey Of Pacific Great Eastern

I.C. Seeking Services Of Alberta's Deputy Minister Of Railways

Victoria, B.C.—Calgahian, deputy minister of railways and telephones for the province of Alberta, has been in conference with Premier H. E. John and cabinet ministers in connection with the proposed survey of the Pacific Great Eastern Railway, it was learned. The services of Mr. Calgahian were requested by the I.C. as he was connected with the P.G.E. work when the line was first laid.

Senator Holme stated that as yet it has not been decided whether the services of Mr. Calgahian could be obtained.

Many Receive Assistance

Thousands Helped Last Year Under Empire Settlement Act

London.—Answering questions in the House of Commons, Right Hon. L. C. Amery, secretary for the Dominions, stated that during 1928, 27,228 persons proceeded to British North America with financial assistance under the Empire Settlement Act. This compared with 29,918 in 1927 and 21,175 in New Zealand. Information was not available regarding the number of assisted immigrants who returned to the United Kingdom in the same period, but he made the official enquiries at the state department concerning the sinking of the vessel, informed the United States government that the ship was of Canadian registry and replied to his enquiries should be advised by the Canadian minister at Washington. All discussion will henceforth be conducted between the Canadian and United States governments.

GIANT GERMAN OCEAN LINER IS PREY OF FLAMES

Hamburg, Germany.—The hydraulic crane which virtually destroyed the new North German Lloyd liner Europa, was expected to have an important effect on the North Atlantic traffic war.

The Europa, a 40,000-ton vessel was being built for five-day service with the Brunnen between New York and the English Channel, and was considered a challenge to the Cunard White Star and Hamburg American lines.

The ship caught fire while only a few workmen were aboard her. She was scheduled to sail for her maiden voyage in July. Construction was nearing completion when the fire broke out suddenly.

Cause of the fire probably never will be known, it was said, since it started in four places simultaneously deep in the hold. Experts did not believe it was arson, however.

The vessel was insured for 40,000,000 marks (about \$9,000,000) but the loss was estimated at about 50,000,000 marks (about \$11,800,000). Shipyard engineers claimed later, however, that the damage was not that large.

Although the ship was not a total loss several experts said it would be useless to rebuild it. The North German Lloyd Line Company was expected to refuse to accept it from the builders, Blohm and Voess.

The fire was spectacular. Starting before dawn, it was not brought under control until 3 p.m. The boilers, machinery, hull and lower decks escaped the fire.

None of the few workmen aboard when the fire started were injured, and the cause of the fire was not ascertained. Five hundred men were thrown out of work by the fire.

TEST SHIPMENT OF GARNET WHEAT TO GREAT BRITAIN

Ottawa, Ont.—Between 4,000 and 5,000 bushels of Garnet wheat is being put into sacks at Port Williams to be shipped overseas. Excellent progress has been made in preparing this shipment which is done with a great deal of care in view of the importance to the grain growers of the future of this type of wheat. The future of this type of wheat will largely depend upon whether this consignment meets with favor among the millers of Great Britain and Germany.

It was first planned to ship 10,000 bushels in an open cargo but after consideration by the Wheat Pool which is looking after the arrangements and the Dominion decided to ship the wheat in sacks. It was decided to bag about half the amount and ship that instead. The wheat will go to London and from there be distributed to British millers and a representative miller in Germany. The department of agriculture officials expect that complete reports will be available before the 1929 crop is ripe.

It was explained at the department that all the reports so far from both Britain and the United States have been satisfactory to Garnet wheat. The Canadian wheat has never, however, not been so favorable to this early ripening variety with the result that it has never been graded as No. 1. In many parts of the prairies the Garnet, because of its big yield and early ripening qualities, is the variety, and it is possible to take its place almost of Marquis No. 1. It is the variety of the future.

The department officials are confident that the report will be favorable because Garnet is a very hard wheat and it is believed will prove just the blend the British millers require to give the "punch" to the softer grades they import from other sources of the world's wheat. The shipment will enable a thorough test by Canada's wheat customers.

Between Canada and U.S.

Matter Of Ship Sinking Turned Over To Hon. Vincent Massey By British Envoy

Washington, D.C.—The sinking of the run runner, *Tro Amor* in the Gulf of Mexico by a United States coastguard patrol has resolved itself into a question of settlement between the Canadian and United States governments.

St. Etienne Howard, the British ambassador in Washington, has made the official enquiries at the state department concerning the sinking of the vessel, informed the United States government that the ship was of Canadian registry and replied to his enquiries should be advised by the Canadian minister at Washington. All discussion will henceforth be conducted between the Canadian and United States governments.

For Winter Fair Building

Saskatoon, Sask.—The provincial government is prepared to contribute one-third of the cost of a \$100,000 winter fair building at the exhibition grounds here on condition that the city of Saskatoon and the federal government donate like amounts. Charles Agar, M.L.A. for Saskatoon County made this announcement recently. Mr. Agar says it is practically assured that the federal government will contribute and almost certain the city would.

Released From Custody

Toronto.—Mary D'Amato, a woman who was long suspected as being a woman by the same name wanted on a charge of theft at North Bay, Ontario, was released from custody when Provincial Constable W. McFie, of Saskatchewan, failed to identify her as the wanted woman.

Size Of Chinese Armies

Peking.—There are over 1,000,000 men in the officially recognized armies of China today, according to the official reports of the various military commanders as reported by Kuo Min, the Chinese official news agency. These do not include the numerous bandit organizations.

Regina Residents Killed

Regina, Sask.—Two well known residents of Regina, Mr. and Mrs. Armour, were instantly killed when their motor car was struck by a Los Angeles bound passing express at the level crossing of the Southern Pacific route. Both bodies were mangled in the wreckage.

CHAMPION CHATTER

VOL. 2

Thursday, April 4, 1929.

No. 7

Published in the interests of the People of Champion and Farmers of the vicinity.
GEO. L. DEPUÉ, Editor.

EDITORIAL

Here, Too!
I'm for the man who sells balloons.
The kind that little kiddies buy.
All day he tramps the dusty street
Beneath a hot and cloudless sky;
But for him at night are dreams so sweet
And through the dream street, vague and dim,
Come little baby faces—and
They smile and coo at him.

C. Davis has taken out a 4 bottom P. and O. tractor plow. Clarence says he might as well turn 4 furrows as 3 with his Mc-Dr. tractor.

If we are not mistaken, old Jake Mesinger wrote that little "ch-

toon man" poem. And old Jake surely lived up to his name, because he could write more stuff than any man we ever heard of. He worked in pie factory.

We have heard a lot about good seed and its effect on yields, but did you notice that while recommending good seed they usually recommend copper carbonate treatment of it for best results. We have the copper carbonate as well as the treaters, 50 lbs. capacity at \$30.00.

Can You Beat It?

Instead of hanging your carpets on a clothesline and beating them, why not spread them over a bed spring that has been laid out in the yard? In this way (which is easier) you can do a better job. If you are interested in a good buy in a Hart Parr 18-30 tractor come in and see us.

An empire is no jewel.

but he is high authority on diamonds. Our kindly advice to all old timers is to get a good night's rest on April 4th and be at the New Hall early on the evening of the 5th.

Did you ever try re-opening the door, then closing it gently after you had slammed it in an explosion of anger?

Homer Howerton has taken out a new Mc-Dr. tractor.

Art Hopkins says he will be there on the 5th.

Come in and see the Mc-Dr. Spring-Tooth Harrows on display in our store.
